-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Note: Although the attorney of record and the examiner had agreed to give favorable consideration to new claim 19. A final review of the case indicates that a 103 rejection of claim 19 is appropriate. The examiner apologizes for any inconveniences incurred by the attorney or the application because of this decision.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 19 is rejected under 35 U.S.C. 103(a) as being unpatentable over Keeton.

Keeton discloses in figures 3-4 a method of providing a pre-surgical warning for used on a body comprising placing a label 40 on the body, providing a visually perceivable indicator 42 on the label, attaching the label to the body. The label has an inferior (the side attached to the body) and a superior side (the side with the writing on it). However, Keeton doesn't disclose attaching the label to surgical sites that are unintended surgical sites. It would have been obvious to one having ordinary skill in the art that the label disclosed by Keeton could be attached to any body portion. If the medical attendant intends on the body portion being a site on the body that is not being operated on, that is a matter of choice as to where to attach the label.
